Re: September 2026 Monthly Report

Date: 10/02/2026

- The officer who was involved in the September 1st incident where he was run over has returned to work for light duty. No date is set yet for when they can return to work without restrictions.
- On October 7th, Michelle Kamba will begin working as a Full-Time Patrol Officer. This was approved at last month's PFC meeting. We are very excited to have Michelle join our organization. Michelle began her law enforcement career with the Clintonville Police Department in 2001 as a PT Clerk-Dispatcher and then later as a PT Patrol Officer. Michelle brings with her over 20 years of law enforcement experience, during which she has had the opportunity to fill many roles, including PSLO and Patrol Sergeant. We feel she will serve our community very well. When you see her, please welcome her to our community.
- On October 5th, Officer Casey Ebert submitted his letter of resignation to the Clintonville Police Department. Casey began working for the police department in August of 2022. We wish him well in his future endeavors.
- You will notice an increase in overtime over the last few months at the police department. There are various reasons for this. In dispatch, we have one clerk dispatcher who has been off due to a birth. On the patrol side, we have been operating one short for several months due to Captain Schroeder's retirement. The majority of vacation time is used during the summertime. Lastly, we have an officer out on light duty; their shifts need to be covered. Many of these circumstances were unplanned, but we have been operating with little disruption. Having the Flex officer, PT Patrol Officer, and PT Clerk-dispatchers has reduced overtime, but I wanted to make you aware of the increases over the last few months. Officers working traffic grants have also contributed to overtime; however, the state reimburses 100 percent of wages and benefits.
- On September 8th, our department suspended the use of Flock cameras. On this date, we suspended officers' accounts so they were not allowed to log in to the system. That day we also stopped sharing our camera access with other law enforcement agencies in Wisconsin. We did not allow agencies outside of Wisconsin access to our cameras before that, we

disabled that feature several months prior. To be transparent, I support the technology as a great tool to aid law enforcement in investigations; however, the company Flock has raised concerns for me. Locally, they have assisted officers in lower-level crimes where officers received vague vehicle descriptions from victims or witnesses. Examples of these low-level crimes are thefts and hit-and-run accidents. They have also aided us in locating stolen vehicles that were taken from our city, assisted with investigating a shooting that occurred in our city, and severe hit-and-run accidents that caused serious injuries to individuals. These are examples of investigations where Flock assisted us. As many of you have seen, many incidents of officers misusing the system have been reported around the country. Within the Flock system, they set it up to eliminate misuse; however, incidents still occurred. We took it a step further and conducted a monthly manual audit of our use to ensure compliance with policies and that officers used it for law enforcement investigations. In meetings with Flock, we received conflicting information that called into question their transparency to law enforcement. While our officers are unable to log in and utilize the system, we have also confirmed that our cameras are not capturing photos. Law enforcement hopes that, in the near future, federal or state legislation will be enacted to address the privacy and data concerns most people share.

- We are once again participating in the Police Lights of Christmas photo competition. As you recall, our agency, with the support of our community, has won the last two years. Last year we raised \$30,000, and that money stayed in our community. Because of the large amount of money collected, we were able to assist Goodfellows, Compassion Connections, the Clintonville Food Pantry, St. Martin's, and the Clintonville School Snack Program, and we also provided gift cards to individuals who may need assistance.
- During the week of October 6th, we hosted a Field Training Officer training. We have been fortunate to host several trainings in the last few years because of the Clintonville Range and Training Center. They have provided us with an exceptional space to host trainings. This allows our agency to host trainings that bring officers from across the state and from outside the state to our community, allows us to send more staff members to training, and avoids having to pay for stateside hotels to attend training.
- On September 25th, I, along with our Captain and three Sgt.'s, came together for an entire day of what we called a retreat. The purpose was to keep the department moving forward and clarify where we're headed. We discussed our mission, vision, and values statements, which guided us in our decision-making throughout the day. We felt this was beneficial for our department, ensuring that, as leaders, we are on the same page. We discussed many topics throughout the day. We hope to come together like this each year to ensure we are bettering ourselves and the department and providing the best service we can.
